Artisanal Embellishment

Jana Platina Phipps, the Trim Queen, sees consumers craving that hand-made, artisan touch. These textile embellishments bring uniqueness and beauty to all types of products.

"We are yearning to see the human hand in our home furnishings as a backlash to our technology-centric lives. Textured surfaces, hand-stitched details, nubby textiles and manipulated fibers are replacing sleek, smooth, impersonal finishes. From unique vintage fabrics, hand-cut leather, painted marbling, hand knotting and overscaled passementerie, we are craving a tactile experience, more rough-hewn, but still fitting in our eclectic modern mix."

From House of Cindy, this collection of one-of-a-kind pillows features vintage fabrics sourced from all over the world. www.houseofcindy.com

Wearing a trendy Coachella Taupe leather, the City Cowboy sofa features an intricate stitching along the sides. The back of this sofa from Eleanor Rigby Home is filled with a feather/down/polyester blend in feather-proof cotton ticking that is channeled to prevent bunching. www.eleanorigbyhome.com
